SUE AND MIKE, THANKS FOR COMING TO OUR CLASS. YOUR COMMENTS ADDED TO MY OWN UNDERSTANDING OF WHAT ITS LIKE TO BE GAY. THANKS FOR SHARING YOUR EXPERIENCES.

I wish we had more time to explore ~~and~~ different topics. In the short time we had I could see my overwhelming ignorance

Really loved seeing the beauty of gayness thru two beautiful people. Saw an article in D.I. about dissention in Gay movement last week. Thought of you two and felt sorry that the D.I. didn't present the understanding between gay men & women.

Also felt the headline was not an accurate summary of what the story was about! Thanks for making me able to see thru media sensationalism of gayness.

Enjoyed the opportunity of having you two in class. Discussing gayness in a personal, honest and open manner enabled me to really accept gay people and empathize with their plight. Made me question society and straights.... Thanks!

Appreciated the openness - hope the Gay community can thrive in C-U.

You really helped me appreciate gayness from the individual perspective.
