

January 19, 1997

Tanya L. Zanish
Curator, Archives of Women in Science and Engineering
403 Parks Library, Special Collections
Iowa State University
Ames, IA 50011-2140

Dear Tanya:

Thank you for your letter and the reports of your activities in 1996. You have certainly been busy doing many interesting things and making good contacts.

Have you contacted the Women Chemists Committee of the American Chemical Society? This is a very active, national committee whose members might be interested in the Archives. I was a member of this committee from 1969-71. The Chair is -

Dr. Christina B. Hendricks
Eli Lilly & Co.
307 East McCarty
Indianapolis, IN 46285
hendricks_christina_bodurow@lilly.com

The staff liaison contact is-

Cheryl Brown
American Chemical Society
1155 Sixteenth Street, N. W.
Washington, DC 20036
c_brown@acs.org

If you want more information on the committee, they are also on the Internet at <http://www.tamug.tamu.edu/acswee>

I think that I suggested to you previously that the date on my papers must be wrong. The first date is listed as 1910 and I wasn't born until 1928. I also would prefer to be listed as a "biochemist". My Ph.D. was from the Biochemistry and Biophysics Department at Iowa State. I have had no training in nutrition and my research was in the areas of both animal and plant biochemistry.

Hope that 1997 will be a successful and exciting year for you and the Archives. Best Wishes!

Sincerely,

Evelyn J. Weber
