Summary and Progress Report

This is an excellent summary and represents a very thorough study considering all contingencies. The Dance Department was a prime mover in this project and is inclined to favor it. If budget is allotted to permit this, it should certainly be forwarded as soon as possible.

Note should be taken of the following corrections and comments relative to:

1) page 4, Item 4

The dance portion of the collection includes and deals with materials on history, esthetics, criticism, social-cultural aspects, etc. (level 3 coverage).

2) page 5, Item 7

The Dance collection is unlikely to expand at a greater rate than at present (level of coverage 3).

This response was the joint work of Margaret Erlanger, Marcia Schramm, and Jean Locke for the Dance Department, and was prepared at the request of Oliver Kostock, Head of Dance Department.
